

ANALYTICS AND FINANCIAL INNOVATION

2019 CONFERENCE SPONSORSHIP OPPORTUNITIES

About Our Conference

June 9-12, 2019 | Radisson Blu MOA-Minneapolis

The unfortunate reality is 97 percent of credit unions lack the resources to fund the level of innovation and analytics investment required to remain relevant, yet they face a member base whose needs are evolving as advances in both technology and data are radically changing the way that products and services are acquired.

The 6th Annual AXFI Conference addresses the growing need to make analytics and innovation a top priority for credit unions. This conference is designed to be of interest to all levels of credit union management, C-Level, VPs, Managers and Technical Staff.

The Analytics Track is designed for those that understand their world is changing and seek a way to stay ahead of the curve. The Innovation Track will be unlike anything you've experienced, focusing on how we take the channels we have created to the next level. The Cyber Security Track is solely focused on the latest security trends as they apply to credit unions.

There has never been a conference like this, for those who believe that innovation + analytics is the future. Come find out why Credit Unions are in the best position to succeed in the new digital world.
